

## Aboriginal Program

On July 2, the CMF approved the funding for 15 Aboriginal Program applications, including 15 television components and 11 digital media components. Of the total, 4 of the television components were children's and youth projects, 10 were documentaries and 1 was a variety project. The digital media components approved for funding were all websites, except for one mobile device application. Approximately \$4.4 million was committed to the television components and \$1.0 million to the digital media components for a total of \$5.4 million.

These decisions and funding commitments are preliminary, as all requests must undergo a contracting process. Funding is not final until contracts are signed. An updated list will be published once contracting is complete.
